Initiatives coordinated annually

### CORE CAPABILITIES

Financial Reporting & Variance Analysis • Advanced Excel • Power BI • KPI & Performance Reporting • Planning & Forecasting • Energy-Sector Billing • Process Improvement • Program Management • Root Cause Analysis • Executive Presentations • SAP • Cross-Functional Coordination

### PROFESSIONAL EXPERIENCE

#### Billing Administrator | AmSpec | Houston, TX

Aug 2026–Present

- Manage billing for laboratory testing, inspection, and analytical services supporting energy, chemical, and industrial customers; processed approximately \$297K in invoices during the first six weeks.
- Review service records, billing requirements, pricing support, and customer documentation; investigate discrepancies and coordinate resolutions with operations, laboratory, and administrative teams.
- Use structured tracking and validation practices to support accurate revenue capture, timely invoicing, and visibility into high-volume customer activity.

#### Administrative Professional | Robert Half Contract Assignments | Houston, TX

Oct 2025–Aug 2026

- Supported election and office operations through accurate documentation, schedule coordination, data entry, customer interaction, issue resolution, confidentiality, and changing operational priorities.

#### Program Manager | MD Anderson Cancer Center | Houston, TX

2022–2025

- Partnered with business leaders and cross-functional teams to clarify operational needs, document requirements, evaluate workflow and technology options, and convert approved ideas into actionable plans, milestones, and ownership.
- Managed a portfolio of concurrent initiatives spanning operations, finance, HR, workforce planning, and technology; maintained governance records, risks, dependencies, status updates, and executive decision materials.
- Managed a \$750K annual budget with monthly forecasts, variance analysis, expenditure controls, resource planning, and cost-benefit considerations supporting leadership prioritization.
- Improved operational efficiency by 30% through workflow analysis, root-cause review, standardized processes, SOPs, training resources, and adoption support.
- Supported enterprise system implementations by providing business requirements, coordinating testing and issue resolution, preparing users, and partnering with technical teams through rollout and adoption.
- Prepared and presented KPI, financial, risk, and progress reporting to leadership, translating complex findings into clear recommendations and next steps.

#### Program Coordinator | MD Anderson Cancer Center | Houston, TX

2019–2022

- Coordinated project intake, schedules, documentation, stakeholder communications, implementation activities, and KPI monitoring across multiple operational workstreams.
- Facilitated collaboration across departments to streamline workflows, strengthen service quality, and support organizational change and continuous improvement.

#### Senior Administrative Assistant | MD Anderson Cancer Center | Houston, TX

2014–2019

- Delivered confidential executive and operational support, including complex calendars, travel, expenses, meeting logistics, correspondence, HR coordination, financial workflows, and executive follow-through.

ADDITIONAL EXPERIENCE

- Patient Access Specialist III Team Lead | Kelsey-Seybold Clinic | Houston, TX**

2013–2014

  - Supervised 14 employees and coordinated staffing assignments, workload distribution, appointment access, and coverage for a 16-person operation while using service metrics to resolve escalations and improve performance.
- Patient Access Specialist Emergency Department | San Jacinto Methodist Hospital | Baytown, TX**

Oct 2008–Mar 2009

  - Supported emergency-department registration, insurance verification, financial documentation, and coordination with clinical teams in a time-sensitive environment.
- 401k Daily Administrator and Health Customer Service Representative | American National Insurance Company | Galveston, TX**

1998–2008

  - Performed retirement-plan administration, reconciliations, reporting, account review, compliance documentation, issue resolution, and high-volume customer support.

PLANNING PERFORMANCE AND ANALYSIS HIGHLIGHTS

- Translated billing, budget, operational, and KPI data into clear status reporting, variance explanations, leadership recommendations, and actionable next steps.
- Applied structured discovery and root-cause analysis to distinguish process, training, reporting, and technology needs, then documented recommendations, ownership, and implementation steps.
- Supported business and technical alignment during enterprise implementations by clarifying user needs, coordinating validation and testing, tracking issues, preparing communications, and reinforcing adoption.
